

# Relax. We're here to help.

LifeGas BioMed Services. Rental, maintenance, repair.

# No capital? No worries. Our biomed rental solutions allow you to sustain and expand patient care.

Purchasing costly equipment isn't always an option. But lacking the right equipment might mean turning patients away. LifeGas BioMed Rental Solutions enables you to care for all of your respiratory patients, and keep your capital costs down.

We offer a full line of ventilators and other respiratory equipment. And we'll deliver it, pick it up, and provide maintenance and technical support.

## Homcare Ventilators

- Pulmonetics LTV Series
- Lifecare
- Aequitron
- Puritan Bennett
- Newport
- And many other models, please inquire

## Other Respiratory Equipment

- Bipaps
- Cpaps
- Concentrators
- Compressors
- Apnea monitors
- Heaters
- Liquid oxygen units
- Suction
- Nebulizers
- Oximeters
- Regulators

# Protect your investments. Our ventilator solutions keep your costly equipment running.

You've invested in the costly equipment you need to care for your respiratory patients. Keep your investments healthy with regular checkups through LifeGas BioMed Services. Our Ventilator Solutions program covers preventative maintenance and repair.

We'll pick up and deliver your ventilator, and our trained and certified technicians will conduct thorough maintenance and technical support to manufacturer specifications. We will:

- Replace all recommended preventative maintenance parts
- Replace batteries
- Calibrate your ventilator
- Complete performance check to manufacturer specifications

Finally, we'll run the unit a minimum of 48 hours after preventative maintenance or repair, and clean the unit before returning it to you. So you can rest assured, it's ready to use.

## Ventilator Preventative Maintenance & Repair

- Puritan Bennett
- Pulmonetics

## Turn to us

LifeGas is the premier supplier of medical gases, gas therapies and equipment exclusively for healthcare providers. This shines through at all stages of our business, from dedicated medical production lines to secure transportation. But we are not content to stop there. With the support of Linde Gas and BOC, which have combined to become the global leader in medical gases, we are constantly striving for innovations that help our customers improve the standard of patient care. This relationship ensures our customers globally developed therapies and solutions, and the peace of mind that comes from local service and support. Our customers can rest assured that we are available around the clock seven days a week, 365 days a year, to provide them with the critical gases and devices they need. It is just one of the ways we show how much we care.

LifeGas. Giving life to people.
